

Grade 10 Agriculture

Term 3 - 54 complete lesson plans

Ready to teach, in the KICD lesson-plan format | 40-minute lessons | PDF and editable Word

ABOUT THIS PACK

54 complete, ready-to-teach Grade 10 Agriculture lesson plans for Term 3, covering tools and equipment, product processing and value addition, establishing agricultural enterprise, marketing agricultural produce and composting techniques.

TOPICS IN THIS PACK

Topic	Name	Lessons
3.1	Tools and Equipment	12
3.2	Product Processing and Value Addition	15
3.3	Establishing Agricultural Enterprise	11
3.4	Marketing Agricultural Produce	6
3.5	Composting Techniques	10

INSIDE EVERY LESSON PLAN

- The specific learning outcomes, key inquiry question, core competencies, values and PCIs, and the resources needed.
- A timed lesson flow: what the teacher does and what the learners do, from introduction to summary.
- The key content (a worked example, notes or a practical with its expected results), then four practice questions with the answers for the teacher.
- The common mistake to watch for, and ideas for learners who need support and for those ready for more.
- A four-level CBC assessment rubric (EE, ME, AE, BE), homework, and a blank reflection space to fill in after teaching.

A TASTE OF LESSON 1

Farm tools and equipment: classification by task

By the end of the lesson, the learner should be able to: a) classify farm tools and equipment by the task they do; b) explain why the right tool improves the efficiency of a farm task

Tools and equipment on the farm

A tool is a simple implement, usually held in the hand, used to do a particular job; equipment is a set of items or a device used for a job; a machine is a device with moving parts driven by an...

You also receive this pack as an editable Word file, so you can change any lesson to suit your class before you print it. Lessons follow the order of the KICD curriculum design.
