INSIDE EVERY LESSON PLAN

- The specific learning outcomes, key inquiry question, core competencies, values and PCIs, and the resources needed.
- A timed lesson flow: what the teacher does and what the learners do, from introduction to summary.
- The key content (a worked example, notes or a practical with its expected results), then four practice questions with the answers for the teacher.
- The common mistake to watch for, and ideas for learners who need support and for those ready for more.
- A four-level CBC assessment rubric (EE, ME, AE, BE), homework, and a blank reflection space to fill in after teaching.

A TASTE OF LESSON 1

What a project is

By the end of the lesson, the learner should be able to: a) explain the purpose of the project; b) outline the project stages

From problem to product

A project uses skills from this learning area (safety, drawing, materials, tools, entrepreneurship) to make an item that solves a real problem.

Stages: identify a problem, brainstorm solutions, research, select an item, sketch and plan, estimate cost, make, finish, price, present and evaluate.

You also receive this pack as an editable Word file, so you can change any lesson to suit your class before you print it. Lessons follow the order of the KICD curriculum design.
